WEEKLY MARKET REPORT

September 1, 2023

IMPORT STATISTICS: CALLING ALL IMPORTERS! The USDA released the import statistics for the first six months of the year. Import volumes for the items below are down an average of 17% compared to the same period the year before. We predict this will cause a new wave of price volatility in our industry. This is worrisome given the seasonally heavy consumption period during the fourth quarter. U.S. importers struggled this year to correct oversupply challenges resulting from deficits in 2020-2021 but the pendulum has now swung the other way.
